

onTAP Boundary Scan Software

EXCLUSIVE SUMMER SALE

The sun is finally shining here in New Hampshire, and the temps are rising - it's actually summer here!

You've got the itch to get outside and enjoy the sunshine and long summer days - and we are going to help you speed up and expand your boundary scan test capability so you can enjoy the summer weather.

When you purchase any onTAP Boundary Scan Software license, we are giving you the option to add another license to your package for FREE*. That's right, FREE! Buy a development seat for the lab, or an MTO for manufacturing, and get another one for a co-worker. You have your choice of an MTO or DLL. And, in the spirit of Summer and fun, easy living, we're going to make this offer even better by giving you total flexibility. We will upgrade every license purchased between June 16 and July 20 to a USB Dongle-based Portable license.

But, you have to act fast! This special offer is only available through July 20.

We look forward to hearing from you. Please feel free to contact us to discuss your boundary scan application.

Best regards,

onTAP Boundary Scan Sales Team
